

Proposal for HoneyBee Hives Presentation For Your Group

HoneyBee Hives, commercial beekeepers located in Coutts Crossing, is committed to educating the public about the importance of bees in our ecosystem. We are excited to offer our services to your group by providing workshops and free, educational presentations on bees.

Our aim is to deliver a fun and engaging learning experience that highlights the significance of bees and the vital role they play in our environment. We also seek to raise awareness about the challenges facing bees today.

We offer a variety of events including:

The Buzz About Bees Presentation: free event

The presentation will last for approximately 60 minutes, tailored to the size and level of enthusiasm of your group. The following topics will be covered:

- Introduction to bees - We will provide a brief introduction to bees and their importance in our ecosystem.
- Bee anatomy - We will explain the unique anatomy of bees and how it helps them carry out their essential work.
- Bee life cycle - We will discuss the different stages of a bee's life and how they grow from an egg to an adult.
- Pollination - We will explain the crucial role bees play in pollinating plants and how it affects our food supply.
- Threats to bees - We will educate your group on the various threats facing bees, such as habitat loss, pesticides, and climate change.
- How to help bees - We will provide practical ways that you and your family can support bees, including planting bee-friendly plants and reducing the use of pesticides.
- Question time

PLUS our observation hive is a safe and secure way to see the inner workings of a beehive. *Please note: this experience is dependent on favourable weather conditions to allow us to extract a frame from bees from their hive to place into the observation hive.*

Healing From A Bee Hive Presentation: free event

A 1 hour, extraordinary journey into the world of bees and their incredible healing properties at our workshop, "Healing From a Beehive." Discover the fascinating secrets hidden within these tiny yet powerful creatures, as we delve into the abundance of natural remedies and therapeutic benefits they offer.

During this enlightening workshop, you will have the opportunity to explore the remarkable healing potential that bees bring to our lives. Led by experienced beekeepers and holistic practitioners, our interactive sessions will provide a comprehensive understanding of the various substances produced by bees, including honey, propolis, bee pollen, beeswax, and royal jelly.

We will unlock the mysteries behind these bee products and their extraordinary medicinal properties. Learn about the rich nutritional value of honey and its diverse applications in boosting immune function, soothing sore throats, and promoting overall well-being.

Dive deeper into the realm of propolis, a resinous substance bees collect from trees, renowned for its powerful antimicrobial, anti-inflammatory, and antioxidant properties. Discover how propolis can be used to support the immune system, alleviate skin conditions, and even aid in the healing of wounds.

Explore the vibrant world of bee pollen, a true superfood packed with vitamins, minerals, enzymes, and amino acids. Delve into its benefits for energy enhancement, allergy relief, and promoting a healthy digestive system. Gain practical knowledge on incorporating bee pollen into your daily routine to maximize its nutritional advantages.

Moreover, our workshop will unveil the extraordinary properties of royal jelly, a substance exclusively fed to the queen bee, recognized for its potent rejuvenating and anti-aging effects. Discover how this nutrient-rich elixir can enhance vitality, support hormonal balance, and promote radiant skin.

DIY Products From A Bee Hive: cost \$25/pp

A 1.5-2hr unique and educational workshop experience where attendees will discover the incredible gifts from a beehive and learn how to use them to create their own all-natural, sustainable products.

The workshop will start with an introduction to bees and their products, including beeswax, honey, and propolis. Attendees will learn about the benefits of these natural products and explore the many uses of beeswax, including creating natural skincare products and even candles.

After the introduction, attendees will get hands-on and learn how to make their own products, which are not only natural and sustainable, but they also make great gifts for family and friends.

Throughout the workshop, attendees will have the opportunity to ask questions and learn about the importance of supporting sustainable and ethical beekeeping practices, and how they can make a difference in their daily lives by choosing natural and sustainable products.

By the end of the workshop, attendees will not only have learned about bees and their products, but they will also have gained new skills in creating their own all-natural, sustainable products, PLUS everyone will take home a Lavender & Rose Lip Balm, Timber & Leather Restorer, and a beeswax wrap that they've created.

As a bonus, we will bring a selection of products available for purchase, including our award-winning honey and honeycomb products, as well as all-natural, beeswax-based balms. Eftpos will also be available.

We believe that educating the public about bees is crucial in promoting their importance in our ecosystem. We look forward to sharing our knowledge and passion for bees with your group, and feel that our presentation will be an informative and enjoyable experience for all attendees. If you are interested in scheduling a presentation or have any questions, please do not hesitate to contact us on 0411 097 275 or buzz@honeybeehives.com.au
